

Welcome to the world of wine at Chez Trappeur! We offer you a selection of over 175 wines from around the globe. In celebration of Arrow Rock's cultural heritage as a Missouri River trading town, Chez highlights wines from France and Missouri. All wines listed in the following pages are dry unless otherwise designated as sweet, semi-sweet, off-dry, or dessert.

Vineyards around the world are moving towards more environmentally friendly practices, or simply keeping the tradition of chemical-free growing that is generations old. Many wineries do not even label their wines as organic even if they are internationally certified as such. Chez Trappeur identifies the wines in our cellar as sustainably grown, organic, or biodynamically grown. "Biodynamic" is a form of organic farming where the vineyard and adjacent farm are treated as a single, holistic organism, balancing the soil, water, plants, and animals within a closed-loop system of environmental health. To help you make more informed choices, we have the following rating system within the wine list:

- Sustainably grown, using few to no chemicals: 
- Organically grown: 
- Biodynamically grown: 

Cheers!
